Charter: Plan and plant high visibility native grassland, pollinator, mini-prairie, rain garden, and other gardens sites

in consultation and collaboration with community partners across different demographics.

Members

- Sue Waits
- Pat Mertens
- Kris Meyer
- Mikal Reise

Progress to Date

1. Children's Museum Pollinator Garden with signage
2. Research existing demonstration gardens throughout community with potential for signage.
3. Reviewing ECASD garden plan with consideration of collaboration.

Future Plans

1. Consider other high visibility native grassland, pollinator, mini-prairie, rain garden, and other gardens sites in consultation and collaboration with community partners; include signage.
 - a. Turf turned to native grass strip between library and city hall
 - b. Native planted berms & swale barriers on the Chippewa in downtown area
 - c. School pollinator strips adjacent to vegetable gardens
 - d. Pollinator strips in public parks
